Professional Summary

Entry-level Technology Professional with experience in Software Development, AI/ML, Cloud Computing, Automation, Data Architecture, and Business Development. Skilled in Python, Java, JavaScript, SQL, Machine Learning, Generative AI, cloud platforms, databases, and data-driven application development.

Education

Bachelor of Technology in Computer Science Engineering – Techno India University 2021 – 2025
Higher Secondary (WBCHE) – Uttarpara Children's Own Home 2021
Secondary (WBBSE) – Uttarpara Children's Own Home 2019

Experience

Technology Intern Sep 2024 – Aug 2025
Eduskills Foundation – AICTE Virtual Internship Programs

- Completed three internships in **Intelligent Automation, Zero Trust Cloud Security, and Google AI/ML**, working with Python, Blue Prism, GCP, Random Forest, and Zscaler APIs.

Web Developer Jan - Feb 2026
BlueHill Technologies - Freelance Project

- Recreated a Figma-inspired interior/decor website using **HTML5, CSS3, and JavaScript**, implementing responsive layouts, product sections, navigation, consultation, and newsletter components.

Lead Generation & Prospect Research Apr - Jun 2026
Iteration67 - Freelance Project

- Generated and researched **118 leads across 50 companies**, identifying decision-makers, roles, contact information, LinkedIn profiles, and company details for targeted outreach.

Data Architecture Specialist – Data Flow & Lineage Jul 2026
Habot Connect - Freelance Project

- Designed an LSA session validation and payout pipeline using backward data lineage, **3NF PostgreSQL schema**, validation rules, business logic, and exception/quarantine workflows.

Projects

Knowledge-Grounded Customer Support Assistant Python, FastAPI, React, TypeScript, SQLite, RAG, OpenAI

- Built an AI-powered support workspace for ticket classification, urgency analysis, knowledge retrieval, follow-up questions, grounded response drafting, and human approval.

AbleSpace – Task Management Platform React, Node.js, SQLite, Prisma

- Developed a full-stack task management platform with persistent database storage and backend APIs for creating, managing, and tracking tasks.

CognoDB – Database Benchmarking & Analysis Database Systems(CognoDB, Neo4j, Memgraph, FalkorDB, ArangoDB), Python

- Performed comparative database experiments and benchmark analysis, documenting methodology, performance observations, and experimental results.

Predicto – AI Stock Prediction Chatbot Python, Flask, Random Forest, HTML, CSS, JavaScript

- Built an AI chatbot for stock trend prediction using Random Forest with an interactive frontend and market-data analysis.

Technical Skills

Programming Python (PySpark, Flask, NumPy, Pandas, Scikit-learn, Matplotlib), C++, Java (Spring Boot), SQL, JavaScript, HTML5, CSS3
AI & Data Machine Learning (Random Forest), NLP Basics, Generative AI (GenAI), OpenAI (ChatGPT, Codex), AI Tools (Claude, CrewAI, Gemini, Blackbox), LLMs (LangChain, RAG)
Databases MySQL, MS SQL Server, PostgreSQL, MongoDB, SQLite
Development GitHub, Git (Version Control), React.js, Node.js, MS Office (Excel Advanced, PowerPoint, Word, Outlook), Google Tools (Sheets, Docs, Slides, Drive, Lens, Calendar), Jira, Power BI, Salesforce
Cloud & Tools Google Cloud Platform (GCP), AWS, Microsoft Azure
Additional Manual Testing, Debugging, Test Case Understanding, API Security, Workflow Automation, Data Scraping, CI/CD Pipelines (Docker, Kubernetes), Technical Support, Operations, Sales, Business Development, APIs (REST API, SOAP, WebSockets)

Achievements

- Lead Generation:** Generated **118 leads across 50 companies** through targeted prospect research and decision-maker identification.
- Leadership:** Coordinator Head, Management Team – led and coordinated **100+ members** during major college events.
- Web Development:** Successfully translated a Figma-inspired design into a responsive HTML/CSS/JavaScript website.
- Competitions:** Participated in multiple hackathons and technical competitions.

Certifications

- Google Coursera – Crash Course in Python (2023)
- Google Coursera – Getting Started with MS Excel (2026)
- IBM SkillsBuild – AI Fundamentals (2026)
- IBM SkillsBuild – Getting Started with Artificial Intelligence (2024)
- IBM SkillsBuild – Data Science Fundamentals (2026)
